Honorable Commissioner of Patents and Trademarks

Dear Sir:

RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

In the above-referenced application, an Office Action was mailed on December 3, 2002 wherein the U.S. Patent and Trademark Office has issued a Requirement for a Restriction/Election.

In response, the Applicant hereby provisionally elects the species of the invention illustrated in Figures 1-9 for examination, which were identified by the Examiner as Group I: first embodiment. It is believed that the following claims are readable on this species: 1-4, 5-8, 9 and 10-17. It is also thought that claim 1 can be considered a generic claim to all of these claims.

The Applicant does, however, respectfully traverse the requirement for restriction/election and would ask the Examiner to reconsider this issue once the official novelty search has been conducted for the provisionally elected group of claims.

Also, as the Examiner is likely to proceed soon with the official novelty search, the Applicant takes this opportunity to

submit an Information Disclosure Statement for this application, many of the reference for which were developed in the parent case(s) to which priority is claimed. This IDS is either enclosed herewith or is being submitted simultaneously herewith under separate cover.

Finally, this response is being submitted along with an appropriate Request for an Extension of Time and filing fee therefore.

Respectfully submitted,

MALLOY & MALLOY, P.A.
